About Me

Motivated Electronics and Communication Engineering student with a strong interest in technology and software development. Eager to gain practical industry experience and contribute to real-time projects in a professional environment. Quick learner with good communication, teamwork, and problem-solving abilities.

Education

Cambridge Institute of Technology North Campus

B.E in Electronics and Communication Engineering — CGPA: 8.6

2023 – 2027

Bangalore, Karnataka

Aragami PU College

PUC — Percentage: 81.3%

2022 – 2023

Greenfield School International

SSLC — Percentage: 91%

2020 – 2021

Projects

GeoFencing Based Monitoring System

- Working on a major project focused on GeoFencing technology for location-based monitoring and tracking applications.
- Designed to improve real-time monitoring and automated alert systems using location boundaries.
- Collaborated with team members during planning and development phases.

E-Store 2025 - MERN Stack Web Application | 🌐 GitHub Repository

- Developed a full-stack E-commerce web application using the MERN stack.
- Implemented product browsing, user interface components, and shopping-related features.
- Worked with React, frontend development concepts, and backend integration.

Smart Drainage Monitoring System

- Worked on a mini project focused on monitoring drainage systems and detecting blockages.
- Collaborated with team members during project development and implementation.
- Focused on solving real-world environmental problems through simple system design concepts.

Skills

Technical Skills: HTML, CSS, JavaScript, React, Python

Core Skills: Problem Solving, Communication Skills, Team Collaboration, Quick Learning, Willingness to Learn

Certifications

- AWS Fundamentals – Udemy
- Java Programming Fundamentals – Infosys Springboard
- Samsung Innovation Campus – Coding & Programming (Python)

Achievements

- Actively participated in team projects and ensured timely completion through coordination and collaboration.
